Information for April:

We will this month focus on spring time. Do some arts and crafts and sing songs. When the weather is warmer, we recommend you to stay outside also, and use our nice playground☺

Garden work days:

Now we are ready for spring and Wednesday 25th and Thursday 26th of April, there will be volunteer days. During this time, we will clean the yard and sweep the grounds. If the weather allows it, we will plant flowers outside. The Children will plant their own sunflower and we will play with bubbles outside☺ We will make and eat waffles and spend all day outside. We encourage you all to join us! Please bring warm clothes and good spirit☺

Monday 30th of April at 9.30, we will get a tour around Gausel fritidsgård. We will meet the animals at the farm. It`s free of charge, **sign up in the kindergarten, by e-mail or Facebook.**

The kindergarten will be open for those who can`t join the trip.

TEAMING UP WITH YOU - THE PARENTS.

We depend on families that can give us feedback, we would love for you to tell us. Do you have any good suggestions, ideas and wishes? Together we can develop a good kindergarten.

Collaborate with family group, "Humlene": Elisabeth, from family group will be in the kindergarten with us every Thursday, and can contribute their expertise in terms of support in parenting- role, to those who want to have some advice.

Circle time - Why do we have circle time ?

The national curriculum says: "*Kindergarten circle time helps develop group feeling when everyone in the group is present - children and adults - and doing something together.*"

We are looking at circle time in the kindergarten as a community where children and adults can experience something together . Circle time should be something that strengthens group feeling , develop language , strengthen I -feeling , practicing concentration , culture -bearing , strengthens the imagination , develop understanding and are interesting for the children.

We want that the children gets the most out of circle time, so we need tranquility and committed adults. We are trying to do our best to create some magic in the circle time, and we would appreciate if all adults do their utmost to attend actively. And it is also not sure that your child is motivated for learning every day, then it's okay to take the baby out of the circle time and play at the second floor☺

And for us to create the best circle time for your child, we are depended on your feedback, please share your suggestions with us, if there is anything you want us to use in circle time ☺

Best regards Vivian, Anette, Karen and Oksana ☺
